

Do you love emergency medicine, but prefer not to work overnight shifts? Consider practicing urgent care with us at Autumn Trails Veterinary Center in beautiful Charlottesville, Virginia. Due to our rapid practice growth, we are looking to add two new veterinarians to our team. Our culture combines high quality wellness and walk-in urgent care medicine from 8 am to 8 pm, seven days a week. We have a fast paced and interesting urgent care caseload; but you still get to see, and snuggle, those healthy puppies and kittens.

Our full time schedule consists of three twelve hour shifts a week. We have a very flexible schedule, so you are able to enjoy life outside of work. No on call or overnight shifts. Our practice is independently owned by two women, who are also wives and mothers, so we understand how important a healthy work/life balance is.

The ideal candidate will enjoy a fast paced environment and surgery. We would prefer a candidate with emergency experience, but will also consider enthusiastic new grads or other experienced candidates. We would prefer a full time candidate, but would entertain someone who is interested in part time as well.

Compensation is based on experience. Our full time benefits include health/dental insurance, license dues, paid CE, paid time off, professional association dues, uniform allowance, pet care discounts and team building events.

Please email a cover letter and resume to jobs@autumntrailsvet.com. We look forward to hearing from you!
