

Autumn Trails Veterinary Center is central Virginia's first urgent care practice. Our culture combines high quality wellness, walk-in urgent care medicine, and boarding; from 8 am to 8 pm, seven days a week. We have a fast paced interesting urgent care caseload; but you still get to see, and snuggle, those healthy puppies and kittens.

Our full time schedule consists of three twelve hour shifts per week. We have a very flexible schedule, so you are able to enjoy life outside of work. No on call, or overnight shifts. We strive for a low drama and a respectful team. Our practice is independently owned by two women, one of which is an LVT. We understand how important a healthy work/life balance is and greatly value our LVTs.

The ideal candidate will enjoy a fast paced environment, be a great multi tasker, and have excellent attention to detail. The candidate must be comfortable inducing/intubating, monitoring anesthesia, placing IVCs, drawing blood, and performing emergency triage. We would prefer a candidate with emergency experience, but will also consider enthusiastic new grads or other experienced candidates.

Due to our rapid practice growth we would prefer a full time candidate, but would entertain someone who is interested in part time. Some weekend shifts will be required, as those are our busiest shifts. Competitive compensation is based on experience. Our full time benefits include health/dental insurance, license dues, paid CE, paid time off, professional association dues, uniform allowance, pet care discounts and team building events.

Please email a cover letter and resume to jobs@autumntrailsvet.com. We look forward to hearing from you!
